

Bloque__Elemento--Modificador

Bloque

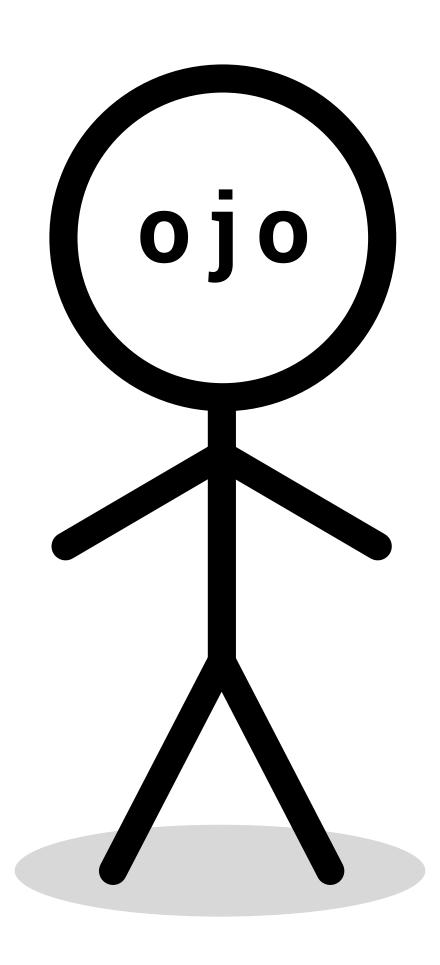

Unidad de contenido con significado propio. Puede estar dentro de otro bloque pero se encuentra en el nivel superior de jerarquía.

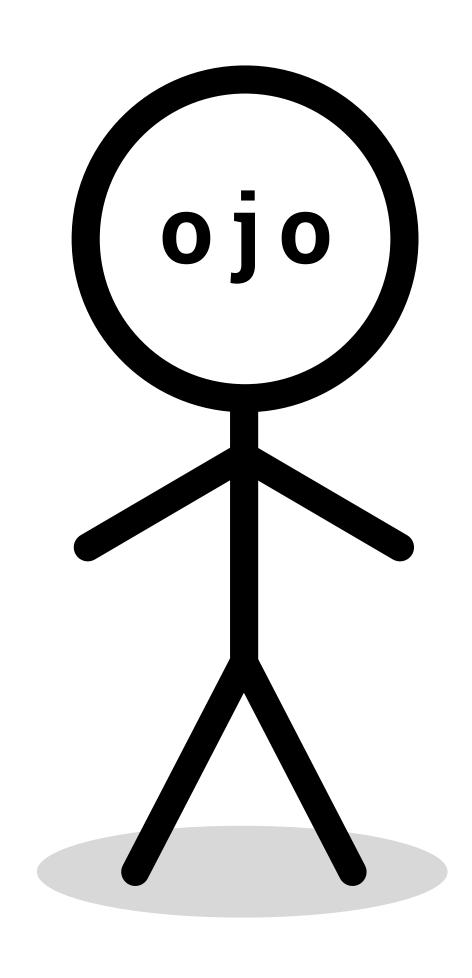

Elemento

Una parte de un bloque, del que depende. No tiene sentido por sí solo.

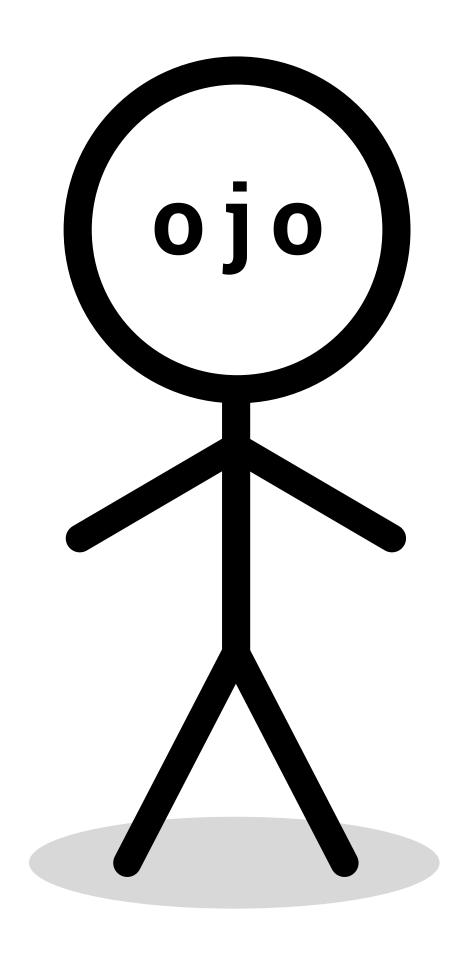

Modificador

Etiqueta extra de bloque o elemento para indicar un cambio en apariencia, comportamiento o estado.

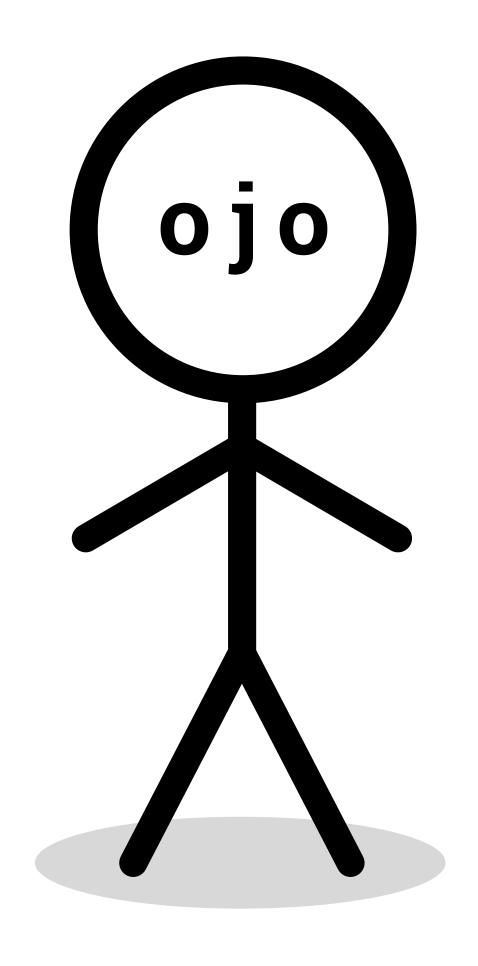

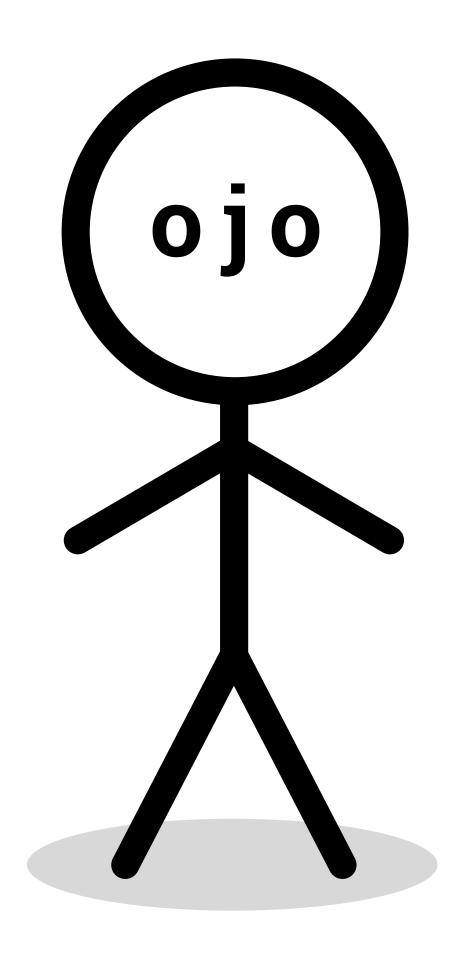

.stick-man {}

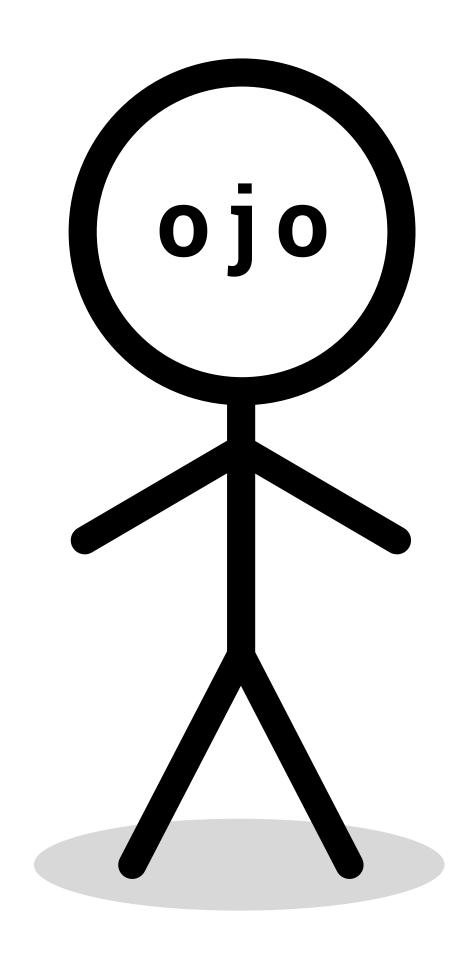

```
.stick-man {}
(Cabeza)
(Cara)
(Cuerpo)
(Brazos)
(Piernas)
```

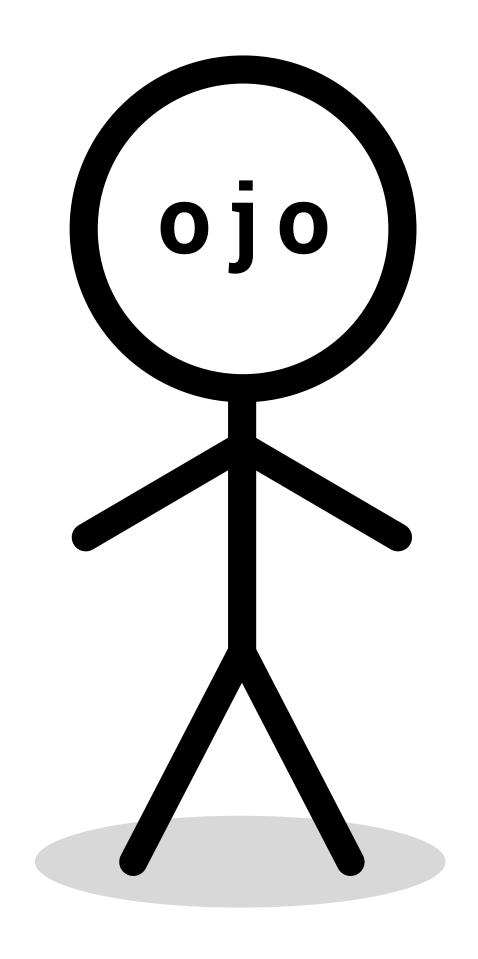

```
.stick-man {}
.stick-man__head {}
(Cara)
(Cuerpo)
(Brazos)
(Piernas)
```

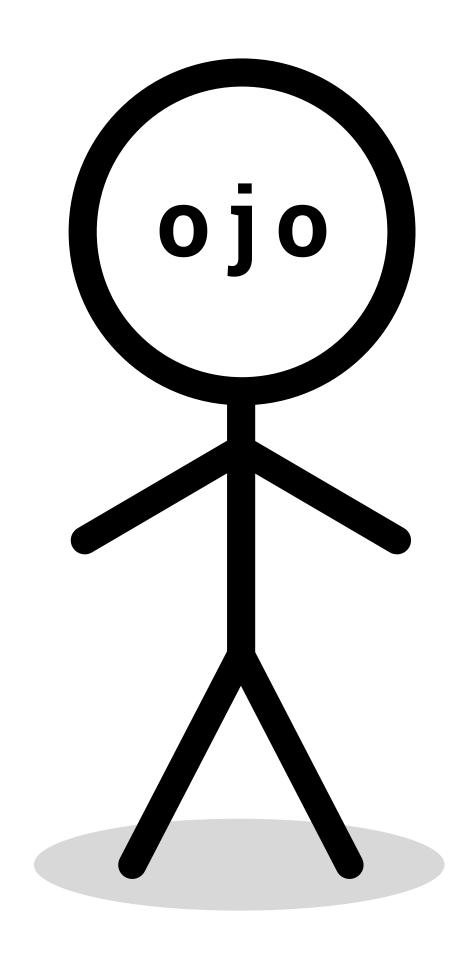

```
.stick-man {}
.stick-man_head {}
.stick-man_face {}
(Cuerpo)
(Brazos)
(Piernas)
```

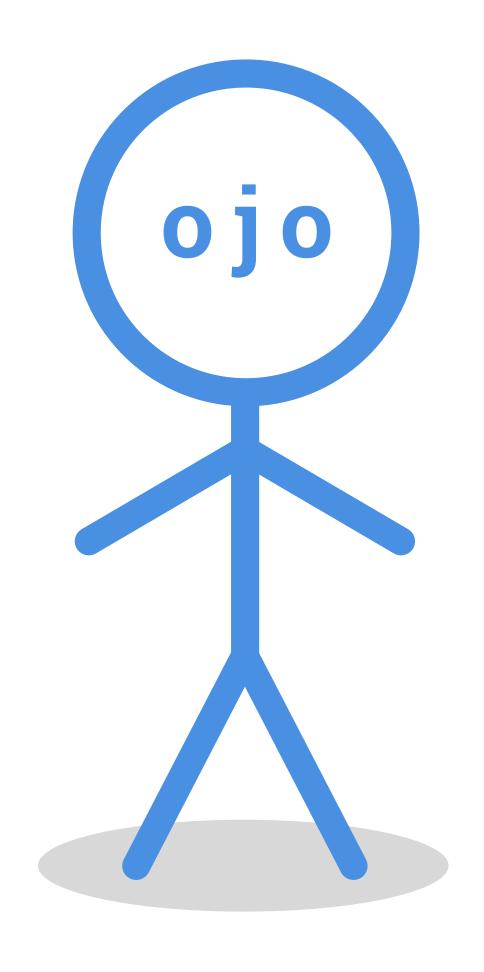

```
.stick-man {}
.stick-man__head {}
.stick-man__face {}
.stick-man__body {}
(Brazos)
(Piernas)
```

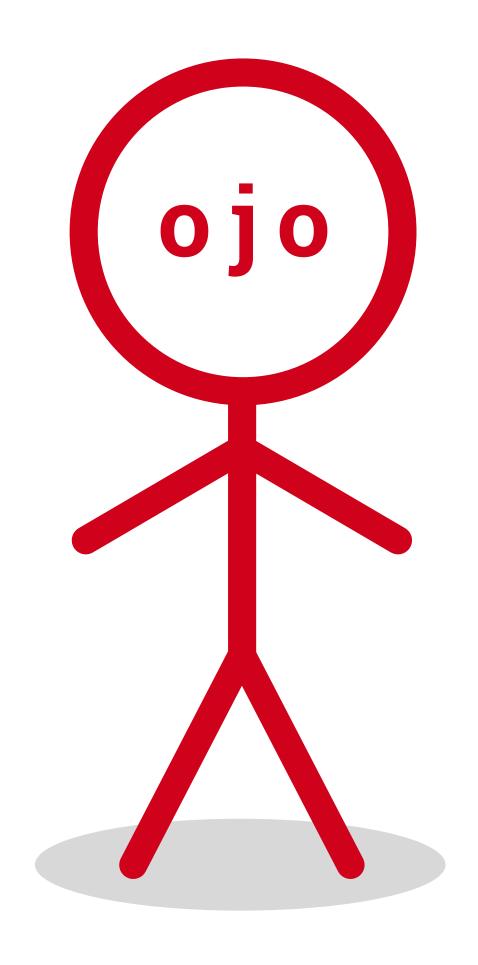

```
.stick-man {}
.stick-man__head {}
.stick-man__face {}
.stick-man__body {}
.stick-man__arms {}
(Piernas)
```

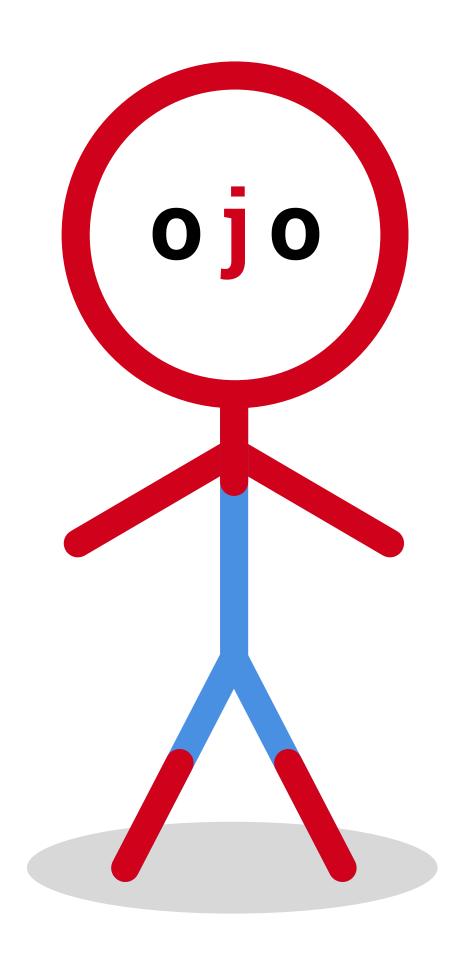

```
.stick-man {}
.stick-man_head {}
.stick-man_face {}
.stick-man_body {}
.stick-man_arms {}
.stick-man_feet {}
```

```
.stick-man {}
.stick-man__head {}
.stick-man__face {}
.stick-man__body {}
.stick-man__arms {}
.stick-man__feet {}
.stick-man--blue {}
```

```
.stick-man {}
.stick-man__head {}
.stick-man__face {}
.stick-man__body {}
.stick-man__arms {}
.stick-man__feet {}
.stick-man--blue {}
.stick-man-red {}
```

```
.stick-man {}
.stick-man__head {}
.stick-man__face {}
.stick-man__body {}
.stick-man__arms {}
.stick-man__feet {}
.stick-man--blue {}
.stick-man--red {}
.stick-man--spiderman {}
```

```
.product {}
.product__container {}
.product__image {}
.product__details {}
.product__title {}
.product__description {}
.product__action {}
.product__action--purchase {}
```

¿Y si ya tengo los botones?

No pasa nada porque pueden convivir diferentes bloques a la vez.

```
.product {}
.product__container {}
.product__image {}
.product__details {}
.product__title {}
.product__description {}
.product__action {}
.button {}
.button--primary {}
```

Vale... ¿Y si está dentro de un listado?

Tampoco pasa nada.

Productos para la nieve

Vamos a seguir unas reglas

Tres, como los Gremlins.

- 1. Solo 1 de cada (b, e, m) como máximo.
- 2. Nunca un elemento sin bloque.
- 3. Nunca echar agua al ordenador.

¿Y los guiones simples?

Los guiones simples (medios o bajos) los vamos a usar para tener **más flexibilidad** en el nombrado de bloques, elementos o modificadores. **Nunca** como separadores.

```
<header class="header">
  <h1 class="header__title">
      <span class="header__title-label">Título</span>
  </h1>
  </header>
```
